Solution on the next page

How to Solve Places, Please

Fill the diagram with all the words in the word list. The words from each group start on their matching number, and they will read in all directions—forward, backward, up, down, and diagonally. Words from different groups sometimes overlap; therefore, some letters will be used more than once. We have started the puzzle for you. When the puzzle is completed, all the squares will be filled.

Caution: The solution is included at the bottom of the page.
