

JIGSAW SUDOKU

Place a number into each box so that each row across, each column down, and each irregularly-shaped nine-box area separated by heavy black lines will contain every number from 1 through 9. In other words, no number will appear more than once in any row, column, or irregularly-shaped section. Working with the numbers already given as a guide, complete the diagram with the missing numbers that will lead to the correct solution. Solution is on the next page.

						8		3
9		3	2		4			6
	8	6					7	
				3		9	6	4
		7	3	9	6	1		
3	6	9		1				
	3					2	4	
4			8		7	6		9
1		2
