## How to Solve Number Fill-In Puzzles

Number Fill-Ins are fill-in puzzles with a delightful difference—instead of words, each puzzle consists entirely of numbers! Just like regular fill-ins, the entries are given to you. Solve the puzzles by filling in the diagrams with entries reading across and down as in a crossword puzzle. The entries are listed in numerical order according to length. Across and Down entries are all mixed together; find their proper places in the diagrams. Each puzzle diagram has entry filled in to help you get started. Happy solving!

**Caution:** The solution is included at the bottom of the page.
