How to Solve Number Seeks

Number Seeks are word seek puzzles with a delightful difference: instead of words, each puzzle consists entirely of numbers. The entries in the list are hidden in the diagram. Seek them by reading forward, backward, up, down, and diagonally, always in a straight line. Do not skip over any numbers. Some of the numbers in the diagram are used in more than one entry and some are not used at all. Happy solving!

Caution: The solution is included at the bottom of the page.
