Solution on the next page

## How to Solve Wizard Words

Wizard Words are Word Seeks with an added bonus! The Wizard is wise and humorous. To discover his words, loop all the words in the word list then read the leftover letters to reveal the Wizard's Words. Words in the diagram read forward, backward, up, down, and diagonally, and always in a straight line. The words in capital letters are in the diagram; any in lowercase are not. Loop each word when you find it and check it off the list. Words often overlap, and some letters may be used more than once.

**Caution: The solution is included at the bottom of the page.**
