How to Solve Timed Word Search

Hidden words will be found reading forward, backward, up, down, and diagonally. Do not skip over any letters. Some of the letters in the diagram are used in more than one word and some are not used in any words.

When you locate a word in the diagram, draw a circle around it and cross it off the list. Upon completion of the puzzle, note your solving time in the space provided and see how it compares to the given solving time.

Caution: The solution is included at bottom of page.
