How to Solve Fill-In Puzzles

Fill-In puzzles are crosswords with a delightful difference—we give you all the answers! You solve the puzzle by filling in the diagram with answer words reading across and down as in a crossword puzzle.

The answer words are listed alphabetically according to their lengths. Across and Down words are mixed together. Cross off each word as you use it. When you fill in words in one direction, words in the other direction will automatically be filled in, so remember to cross them off as well.

Most puzzle diagrams have one word filled in to help you get started.

Caution: The solution is included at the bottom of the page.
