SKILL-O-GRAM

Each square contains one part of a complete drawing. Using a pencil or pen, you are to copy exactly what you see into the empty grid. Use the letter-number combinations as a guide, and draw exactly what is in each box into the corresponding box in the grid. Start with A-4, drawing in the box where Row A and Column 4 intersect. Then draw in A-5, B-1, etc., and continue right through to the end. The result will be a finished drawing, as skillfully drawn as if by an artist. The artist's drawing is shown on the last page.
